

Executive Business Report

Overview

This dashboard analyzes retail sales, customers, suppliers, and operational performance between **2019 and 2023**. The objective is to identify business opportunities, improve profitability, and support data-driven decision-making.

Key Business Findings

1. Revenue Concentration

A large share of revenue comes from a limited number of product categories and products, increasing business risk if demand changes.

Recommendation

- Diversify the product portfolio.
 - Increase marketing for low-performing categories.
 - Ensure continuous availability of top-selling products.
-

2. Sales Decline

Revenue shows steady growth until 2022, followed by a noticeable decline in 2023.

Possible Causes

- Lower customer demand.
- Stronger market competition.
- Inventory shortages.
- Reduced promotional effectiveness.

Recommendation

- Analyze sales by region and product.
 - Improve demand forecasting.
 - Launch targeted promotional campaigns.
-

3. High Return Rate

The overall return rate is relatively high, which negatively impacts profitability.

Recommendation

- Identify stores with the highest return rates.
 - Improve product quality control.
 - Enhance order accuracy and delivery processes.
-

4. Regional Performance Gap

Some cities and regions consistently outperform others, while weaker regions contribute less revenue.

Recommendation

- Expand successful strategies to low-performing regions.
 - Increase localized marketing campaigns.
 - Optimize pricing based on regional performance.
-

5. Supplier Dependency

Revenue depends heavily on a small number of suppliers, creating supply chain risks.

Recommendation

- Diversify suppliers.
 - Monitor supplier performance regularly.
 - Develop backup supplier agreements.
-

6. Long Supplier Lead Time

Some suppliers require long delivery times, increasing the risk of stock shortages.

Recommendation

- Reduce lead times through supplier negotiations.
- Prioritize high-performing suppliers.
- Improve inventory planning using demand forecasting.

7. Customer Growth Opportunity

Premium customers generate a significant portion of total revenue, indicating the importance of customer loyalty.

Recommendation

- Strengthen loyalty programs.
- Offer personalized promotions.
- Increase customer retention initiatives.

Expected Business Impact

Implementing these recommendations can help the business achieve:

- Increase sales and revenue.
- Improve profit margins.
- Reduce return rates.
- Enhance customer loyalty.
- Optimize supplier performance.
- Minimize inventory shortages.
- Support sustainable business growth.

Conclusion

The dashboard provides a comprehensive view of sales, customer behavior, and supply chain performance. It enables management to identify business challenges, monitor key performance indicators, and make strategic decisions that improve operational efficiency, profitability, and long-term growth.
